PROJECTS

4th Year Research

Machine learning approach for analyzing the user comments of trending music videos on YouTube to identify the influencing factors.

The goal of this study is to identify key influencing factors that contribute to video trends and empower content creators to craft videos that resonate with their audience

3rd Year Mini Project

Arduino MIDI Piano.

My aim was to Converting an old keyboard into a MIDI keyboard because it is a cost-effective and practical solution for musicians who want to use a MIDI keyboard but cannot afford one.

3rd Year Group Project

Order management system For a Coffee Shop

Front-end: React.js
Back-end: Node.js and Express.js
Database: Microsoft SQL Server

USER MANAGEMENT SYSTEM

Web application for user profile management. Done for the learning purpose [HTML, CSS, PHP]
<https://github.com/nuwandm/User-Management-System>

React Dashboard

JavaScript/cssc/Html
https://github.com/nuwandm/admin_dashboard

MERN App For Workout Tracking
